The Ablaze Group has been in business for 35 years, and Ablaze Polymer, Lining & Coating (Ablaze Lining) is a part of the Ablaze Group. The company produces fluoropolymer valves, fittings, lined Pipes, as well as many other items.

Products are built with extreme corrosion in mind and are compliant with international standards like ASTM F 1545. We supply the highest quality PTFE Lined, FEP Lined, and PFA Lined goods to a wide variety of industries around the world, including the chemical, oil & gas, power generation, mining, petrochemical, as well as paper sectors.

We are able to meet the needs of our customers in the corrosion-resistant industry with the help of our extensive knowledge and stringent quality control procedures. Over the years, we've established a solid reputation thanks to our unrivalled production abilities, extensive industry knowledge, and rigorous quality standards. We pride ourselves on our unwavering dedication to providing products of the highest possible quality.

PTFE is used in industries where resistance to corrosion, wear, friction, high temperatures, and leakage are critical. Numerous sectors, including the food, petrochemical, chemical, medical, pharmaceutical, as well as many others, make substantial use of PTFE.
