Aerolam in real sense is a multifaceted organization with manufacturing prowess in Reflective Insulation Material, XLPE (Expanded Crosslinked Polyethylene Foam) Insulation Material, FIBC (PP Woven Jumbo Bags), PP Bubble Guard Board (a board with endless applications and seamless possibilities) & CPP Film (Especially for Medical & Food grade Packaging).

We are an Ahmedabad, India based conglomerate having a decade of experience in real estate and construction business and have recently diversified into manufacturing of construction material. Aerolam Insulation, one of our group entities, has developed a unique aluminum foil-based insulation material (Bubble Insulation) which has potential to change the way our industrial and residential building are constructed and insulated in future.

We take pride in being a pioneer in the implementation of this technology, wherein we have developed double-layer air bubble insulation material and we are glad to state that till now this technology is not been introduced by any other company in this segment of market except us in India. visit our website <https://aerolam.com/>
