Allo Innoware is India's foremost health first kitchenware brand. It provides healthy kitchen products across India and even the globe.

The main purpose of **Allo** is to care for your health by introducing you to healthier choices in the kitchen. **Allo** hopes to achieve that by making use of the lightning-fast digital channels.

Its first line of products is the **Allo Foodsafe** range, which introduces India's first-ever **glass Container with Break Free Lock**. It uses the **Goodness of glass** to make your meal healthier. **Allo Foodsafe** has already made its place in the top 100 lunch boxes across eCommerce.

It has been in use since 5500 years for **food storage jars & containers** thus proving its efficiency. A **glass lunchbox** will not only take care of the hygiene but also preserve the nutritional value of the food through the **Goodness of glass**.

Allo Foodsafe is not just **glass containers with lids**, it is a microwave-safe **glass lunchbox**, made of 100 % borosilicate glass which is FDA certified and BPA free because unlike other lunch boxes it does not release any chemicals into. It can be used as a **glass tiffin box** and also as **glass containers for the kitchen storage**. The **Allo Foodsafe** is an odor-free, stain-free, scratch-resistant and **airtight glass lunch box** with break free detachable locks, which just make it so much more convenient to use. You can use the Allo Foodsafe product as **microwavable glass containers** as well as a **glass lunch box with bag**.
