Alpha Fortress is a FinTech and RegTech solutions providing blockchain-based software development firm for international payments, digital identity verification, and management. In the 21st century, sovereign identity is the primary objective while ensuring that bad actors from around the world are not able to launder money or fund terrorism. Alpha Fortress aims to lay down the foundation to educate the general population about the importance as well as the implementation of this vision through traditional and digital channels and encourage FIs to integrate a robust and uniform system to the overall FMI. This dream can be possible through dedicated team efforts and by collaborating with a network of global business entities, Financial Institutions, and regulatory authorities whose recommendations and influence can contribute to the innovation in the financial sector. Alpha Fortress LLC team is committed to facilitating instant and convenient customer identification process and KYC, that is legally, and more importantly, ethically compliant with local as well as global regulations and is accepted by the customers worldwide.
