In order to keep up with the current times Technorobotic Machines Pvt. Ltd. has diversified its product list to cater to a wider audience.

Having been a part of the plastic industry for more than 25 years, we have studied the rigid packaging industry very closely. Our main aim was to create machinery to automate a plant by offering top of the line solutions for the customers needs.

2016 was very important year for us. In 2016 we launched our entire **IML Robot Series** working directly with the moulding machine manufacturers to provide a complete OEM solution for the customer.

We also developed the **Techno Unscrambler Series** which caters to bottles, & jars of all shapes and sizes and for all speeds.

The **Techno Uni Packer** is another product of ours aimed at automating the packing process done by our clients.

Our company has full-fledged manufacturing plant which includes a machine shop, fabrication unit, paint shop as well as assembly area we also have design team, who do 3-D modelling of all machine before manufacturing.
