Bamboo Pulp Soup Paper Cup

Paper soup container may be used with hot or cold liquids, made from renewable resources, and is lined with PE. The cup provides an alternative to traditional disposable soup cups.

The Disposable paper soup cup is insulated to protect hands from the heat of hot liquids, color printed by size for convenience in serving, and fits a lid sold separately to prevent leaking.

Being compostable in municipal and industrial composting facilities, soup cup / soup bowl is printed with a decorative pattern.

Disposable food service products are used to store, insulate, transport, prepare, and serve food and drink.

paper cup design: Shijiazhuang Mykang Trading Co., Ltd
