Many of you are probably planning or hoping to go on a trip, someplace relaxing and fun at the same time. But international holidays have the problem of quarantine, where as a holiday within India does not seem very adventurous. But now you do not have to worry on the adrenaline front, because Xcapade has you covered. No matter which corner of India you are in, Rajasthan is a short flight away. Apart from the History, culture and the delicious food this land of royalty has to offer, Xcapade adventures has brought the most exciting and adventurous theme park to this lovely state.

The park covers seven acres of land, and is located on the outskirts of Pushkar, not more than a 3-hour drive from Jaipur. The founders of this place understood the need for an outdoor and adrenaline filled park where one can find nothing like the ordinary theme parks have. Here is what you will find at Xcapade.
