DK Spicy Bytes is a shawarma and grill shop that offers a wide range of shawarmas, including panini shawarmas, panipuri and cone shawarmas.

Each variety we offer has a distinct taste. We use a masala mix in our shawarmas. Combining these ingredients makes us the best in the world for shawarmas.

DK Spicy Bytes serve the meals on the premises, although many also offer take-out and delivery services. The quality of the food and the way the food is presented is class apart. Below are some of the different kinds of dishes.

Fried Chicken:

Freshly chopped chicken is combined with our spicy masalas and marinated for the ideal amount of time before being cooked fresh to order.

Shawarmas:

We have a wide variety of shawarmas. Not just boring plain shawarma and platter shawarmas. We have cone shawarma, burger shawarma, panini shawarma, pani poori shawarma, and we are also planning to introduce soupy shawarma.

Grill Chicken:

Grills are always the best. But here in DK spicy bytes, it will get an extra level of flavor with our secret spices and masalas. The tangy, spicy taste mixed with our unique mayo gives a hunger every time.
