Load cell,Torque force sensor,Torque transducer | bransensor.com

BRANS Measuring & Controlling Technology Co. Ltd is a Chinese Manufacturer of different types of load cells, torque sensors, pressure sensors, multi-axis sensors and related instruments and software. Brans Located in the Electronic City-Hefei, Anhui Province. BRANS built a reputation as a quality provider of test and measurement tools around the world. As the Sensor Solution Source, BRANS supplies test and measurement products to many industries, especially automobile, medical, robotic and aerospace.

What you could get from Brans?

Load Cells, Miniature and sub-miniature force sensors, Pressure Transducers/sensors, Torque Transducers, Displacement Transducers (LVDTs), Digital Gauges, Strain Gauges, Instrumentation for Test, Digital AED Transducer Electronics, AD103C with RS-232 and RS-485 4-wire interfaces, Amplifiers and data acquisition systems as well as software for structural durability investigations, tests and analysis, Measurement and Other Applications.

Why choose Brans?

- 1.Brans cooperate with HBM, FLINTEC, METTLER TOLEDO, Honeywell, Vishay and other famous brand electronic measuring instruments and system. We could learn and get the most advanced technology and news of procedures. Good manufactures means good products.
- 2.We could OEM for miniature and sub-miniature load cells with tension or compression; big capacity load cells/sensors Brans also could make it with good quality material.
- 3.Brans products (load cells, force sensors, amplifiers...) have been certified per ISO9001, OIML, CE, ROHS, NETP AND ATEX. Brans could promise you the best quality for measuring products. Donut load cell

Who Brans cooperate with?

Brans have developed solutions for a wide range of industries including automotive, aerospace, military and defense, oil and gas, R&D and material/test labs, machine and automation equipment designers and builders, off highway and heavy equipment manufacturers, medical device manufacturers, semiconductor fabricators, utilities and energy companies, marine equipments and shipbuilding.
