**Sildigra XL Plus 150** mg claims to have a combination of Sildenafil Citrate 150mg and a few other excipients. This combination is only used by this company as they claim that Sildigra XL Plus is more effective and has fewer side effects. Sildigra XL Plus works on the same principle as other Sildenafil Citrates which inhibits the PDE5 enzyme and ensures better blood flow to the penis; This improved flow results in a more satisfying erection in men.
