JINSON was founded in 2004, located in Cangzhou, a famous casting town in China. It is a high-tech enterprise integrating research, development, production and sales.

We always keep the consistent high quality as our core principle.

Our company mainly products stainless steel pipe fittings, carbon steel pipe fittings, high pressure pipe fittings, OEM products and so on.

For more than ten years we have been engaged in the development and production of various products. Excellent products and quality service win the recognition of many customers for us. Low labor costs, state-of-the-art production facilities and efficient organization mean very competitive prices can be achieved. Most of our products are exported, widely used in various fields, such as chemistry, oil, medicine, food, and the field needs heat-resisting, corrosion-resisting and hygienic conditions etc.

Except for the common pipe fittings, we can also produce according to the customer's drawings and samples. Your satisfaction is our eternal pursuit. We sincerely hope to establish stable and long-term cooperative relations with customers all over the world.
