About Us

Hunan Hifuly Technology Co., Ltd invested in the spark plugs project in 2017, our factory have more than 20 years history, and now has become the second largest professional iridium spark plug factory in China. With 8 automatic production lines, develop over 200 varieties of spark plugs, and our annual capacity was more than 30 millions.

Our factory supply for many famous auto brands, we established strategic cooperative relations with Germany COW company and UK Automotive OEMs in 2010, exporting more than 1 million spark plugs for the two companies every year.

We found "HIFULY" brand and specialized in iridium spark plugs R&D, we adopt Japanese cold sealing tech in production process with higher heat resistance, better insulating properties and higher reliability (Note: NGK company also adopt Japanese cold sealing tech, most spark plugs factory adopt hot riveting process), now our brand is the leader of iridium spark plugs manufacturer which dedicated to luxury car.

["HIFULY" company produce high quality spark plugs](#), we promise long warranty time which could reach 60,000 KM for after market loading.
