Established in 1988, is located near Mumbai and specializes in the field of Combustion equipments. The management consists of technocrats with more than 5 decades of experience in the field of thermal equipments. Our Industrial burners have been installed & operating at thousands of plants across India (& world) and proven to be reliable combustion systems. Further to that, our strict internal QC procedures and prompt customer support, assist us in having large base of satisfied customers. World over energy costs are increasing & more stringent environment regulations introduced. Accordingly, we believe in continuous innovation & introduce new products to provide improved savings in energy bills for customers & adhering to environmental compliances.
