Detailing Devils is a globally recognized auto detailing company with its headquarters in Singapore.

With industry leading standards, Detailing Devils specializes in vehicle restoration & paint protection services by making use of the frontline nano tech coatings developed and tested in the US.

Premium services, great customer service, friendly employees and a perfectly detailed vehicle! That's what you can expect when you visit any of our locations. Offering everything from the basic exterior wash to a complete detailed job inside and out, we have something for everyone.

We understand our customers, and more specifically, the connection that our customers have with their vehicles and that is why we lay more emphasis on attaining our result

What can a vehicle gain with Nano ceramic coating?

Once a nano ceramic coating is applied correctly there are numerous benefits a vehicle can gain from it. Some of them are: The layer of nano ceramic coating provides excellent protection against UV rays, road chips, harmful contaminants, oxidation, etc. It keeps the vehicle as glossy as possible.

It stays for years and keeps on providing that brilliant shine and protection. Though, it sometimes needs to be corrected once or twice a year depending on the vehicle's paint condition.

It provides hydrophobic abilities, meaning it can repel water. So acid-rain, muddy water, bird droppings, bug splatters are all things of the past.
