DropTaxi is an Inter-city taxi booking facilitator. It is owned and operated by Sanviv Services Private Limited, a company incorporated in India. It is involved in Supporting and auxiliary transport activities; activities of travel agencies. We started this venture out of a personal pain point of paying two-way charges for a one-way drop trip. Market taxis charge two-ways, usually citing the reason for returning empty. By harnessing information and communication technologies, we have disrupted the conventional practice. Our drivers are well-mannered, disciplined, and courteous. You can download our app on the android play store.
