Excellent CNC Fiber Laser Cutting Machine With Rotary MTF3015R [cnc laser cutting machine price](#) professional laser cutting machine supplier

### CNC Fiber Laser Cutting Machine Features

Tube welding or integrated casting machine body: higher stability for higher precision.

Raycus fiber lasers, high and stable function, lifespan is over 100,000 hours.

Perfect cooling system, lubrication system and dust removal system: make sure the machine can operate stably, efficiently and durably.

A specialized CAD / CAM automatic programming software and automatic nesting software: it is possible to maximally save raw materials.

High Efficiency for photoelectric conversion: Compare with CO2 laser cutting machine, fiber laser cutting machine has three times photoelectric conversion efficiency.

Low Cost: Save energy and protect environment. Photoelectric conversion rate is up to 25-30%. Low electric power consumption, it is only about 20%-30% of traditional CO2 laser cutting machine.

Low Maintenance: fiber line transmission, no need reflect lens, save maintenance cost;

Easy Operations: fiber line transmission, no adjustment of optical path.

Tube choose : 3m or 6m tube you can choose.

### Sheet & Tube Laser Cutting Machine After-sale Service:

36 months guarantee of the whole machine, we will provide replacement or repair service when you need it.

Software is on update for free whole life.

English manual and CD video for machine using and maintaining will send to you with the machine.

Our engineer can offer technical support in your country if necessary, or get train in our factory for free.

7\*24h online technical support via Skype, Email, WhatsApp, Phone, Team Viewer, even on weekend even on vacation.

If you have any question on [CNC Laser Cutting Machine](#). We will give the professional answers to your short questions.

For more information on small laser cutter, please [click here](#) to browse our website.
