Defirst, a highly praised manufacturer and supplier of construction debris netting and scaffolding netting in China.

Defirst, is committed to exporting strong debris netting manufactured from high density polyethylene monofilaments. Thanks to the particular constructive design of these safety nettings, extra quality strength and safety can be obtained. We provide vertical debris netting and horizontal debris netting, scaffolding net, enclosures, wind netting, nylon and PP, plastic netting for various uses in construction, agriculture and other industries.

### Products and Services

We constantly develops new products for construction safety. One of them is Perforated Metal Panel System for Scaffold Fall Protection System. This system can be used with traditional HDPE debris netting offering double protections.

Defirst is your reliable source for debris netting, building safety systems and service. Defirst can offer you various grades of safety mesh and nets and fencing. Contact us for further information on this product.
