We at Warrior Trust Technologies started this company to advance the technology usage and process on all segments of the Logistics & Transportation industry. Technology is evolving every day but the adaptation rate is not the same as evolution. We are aiming to take the advantages and benefits of the usage of technology in the logistics industry.

As we all know the transportation is the lifeline of Indian Economy and major contribution to the country's GDP (around 10%). With the adaptation of technology the efficiency and productivity of logistics sector multiplies which in turn increases the contribution to the country.

The technology we are majorly focussing on is fuel monitoring and vehicle monitoring to improve fuel efficiency and tracking effectively. Apart from this, we will address the needs and demands of the logistics industry in future.
