We have manufacturing plants annual capacity 5000tons for CDBS(hydrous/anhydrous calcium salts); 5000tons capacity for **nonionicsurfactant**;10000tons capacity for **Polycarboxylicacid cement water-reducer**. Among them CDBS(hydrous/anhydrous calcium salts) has reached international advanced levels.Advanced technological equipment with ethoxylated omizing external recirculation systems are adopted and installed in the production facilities processing Nonionicsurfactant and Polycarboxylicacid cement water-reducer with greater monomers. Products have the characteristics like narrower mass distribution, lower content of polyethylene glycol, safer, environmental friendly, etc. and have been widely used in various fields like pesticides, cement water reducer, textile, dyes, leather, oilfield, dailyuse chemicals, detergents and highly valued by the users.
