Hegnshui Jingte Brake pad Tech Co., Ltd. covering an area of 50,000 square meters is located in the Binhu Industrial District of Hebei Province, Which is in the east of the national nature reserve-Hegnshui Lake. We are a modern enterprise specializing in manufacturing auto friction materials and have a long-term partnership with Chinese Auto Parts exporters. We have introduced advanced equipment and complete inspection means, and have had rich production management experience and strong power to do technological research and development. We always enrich and renovate materials prescription. We have stable production ability and perfect after-sales services. We professionally manufacture various kinds of auto brake pads used for heavy truck and passenger vehicle.

Now we can offer over 1200 types and 3,500,000 sets of truck brake pads and over 800 types and 10,000,000 sets of passenger vehicle brake pads every year. JZANC has been the member of China Friction Sealing Material Association, and has been approved by ISO 9001. JZANC has enjoyed a high reputation in international market and has been fully recognized by customers.

"Safety and persistence" is our unchangeable tenet. "Management in good faith, development together with you" is our belief forever. In order to develop the friction material industry, we adapt advanced technology, JZANC must adhere to the quality policy of "meeting the demand of customers, improving our system continuously", and carry out the strategy of "excellent products, building up JZANC brand".

We still adhere to principle of "Customer is the god; Quality is guaranteed" and welcome national and international customers to visit our factory and give best advice.
