Hero Lectro, a venture of Hero Cycles Limited, is a leading e-bike manufacturer in India. It is a technological revolution with an incentive to evolve the way one rides a bicycle. With their advanced IP67 rated battery, highly efficient motor and LED display to choose from 4 riding modes, Hero Lectro is a futuristic product that is revolutionizing it's users lives by transforming the way they travel.

Hero Lectro e-bikes are internationally designed across Manchester(UK), Berlin(Germany) and India. With an aim to navigate through congested urban spaces while moving towards a fitter and greener tomorrow, Hero Lectro cycles have four unique and advanced modes: Throttle, Pedelec, Cruise and Pedal. Riding a Hero Lectro e-cycle is like riding a bike except there is no bulk, no unearthly fuel costs, and no carbon emissions. Keeping the different user profiles in mind, Hero Lectro provides solutions for commuting, recreation as well as last-mile delivery. These battery-powered, eco-friendly e-bikes help you glide and ride seamlessly with no hassles in any weather and on any road.
