The founders of **Instituto Design Innovation (IDI)** had an illustrious journey which thrives to deliver its promise of imparting industry specific education to its students. IDI offers various vocational courses from basic to an advance level and specializes in technology, design and management. **IDI's** focus is to provide training that promotes employable skills, and enhances social relevance.

Instituto Design Innovation's campus is an architectural brilliance and design masterpiece which is built with state-of-the-art modern amenities. Along with assured placements to all its deserving students, IDI provides technical, field knowledge and industry exposure. Our campus is a technologically advanced Smart campus which is equipped with design laboratories of international standards for fashion designing, interior designing, photography, Stitching / Tailoring and many others and also to assist students with their studies, there is a comprehensive library and research center on the campus. Some highlights of the **IDI** campus is that the class rooms, study center, workplace are aesthetically designed.
