When it comes to adverts, you must be very careful. Don't fill up your site with various affiliate links in the name of generating residual income. If you want to use Google AdSense, web design Kanpur, you have to include that only once or twice at strategic points. You'll still earn the residual income when the adverts are neatly placed.

You also have to make sure each page is carefully planned with a link back to the home page displayed on them. This makes navigation very easy on your site
