JC Casting is a high-tech enterprise, which is located in Dongying City, Shandong, China. The main casting techniques are lost-wax precision casting, water glass casting, sand casting, and die casting. We have 160 employees, 11 senior technicians, and 19 engineers. Such a strong technical team can fully support us to help our customers build a foundry with a complete production line.

If you have a requirement to build a modern casting factory with full production lines, welcome contact to get more details.
