JK730 Automatic Crawler Mounted DTH Drilling Rig

JK730 automatic DTH Drilling Machine features its lower operation cost and humanized design.

It adopts a powerful diesel engine and hydraulic oil pump station assembly to generate power, allowing rigs to rotation, feeding, lifting, walking and angle positioning.

During operation, only the percussive hammer consumes the compressed air. In contrast with conventional pneumatic drill rigs, JK730 consumes about 40% to 50% less energy (fuel or electricity), and the air displacement of matched air compressor decreases 30% to 50%.

DTH Drilling Machine introduction:

JK730 DTH drilling machine is the air-compressor separated hydraulic DTH drilling rig. It is equipped with automatic pipe changer for pipe storage, changing and connecting automatically, as well as hole locating device and luxurious cabin. Safe and comfortable operation environment substantially reduces labor intensity and curtails labor numbers. In contrast to the all-in-one rigs, JK730 is featured by its convenient operation and maintenance as well as low downtime rate.

Automatic Crawler Drilling Rig Parameters:

Model	JK730	
Borehole diameter	90-165mm	
	Rod capacity	5+1/6+1
Rod carousel	Rod length	3m
	Rod diameter	φ76mm
Auto rod-changing depth	18m/21m	
Applicable rock hardness	f=6-20	

Working air pressure	1.2-2.4MPa
Air consumption	11-21m³/min
Feeding stroke	3850mm
Rod-changing length	3m
Max. horizontal drilling height	2970mm
Rotation rate	0-90rpm
Rotation torque	3300Nm
Travel speed	2Km/h, 3Km/h
Grade ability	20°
Power	Yuchai 92kW (optional Cummins 97kW)
Dust collector (optional)	Hydraulic dry dust collector
	Wet dust collector
Dimension (LxWxH)	7000mm×2400mm×3350mm
Weight	9000kg

As a professional crawler drilling rig Supplier, we have professional products and perfect service.
