WHY SHOULD YOU HAVE A MOBILE APP?

mCommerce offers the simplest way for reaching out to a larger customer base and increasing the sales of your store. Nothing can beat the importance of mobile stores when it comes to acquire customer loyalty for an online business, especially in the era of convenience-seeking customers. Having an app is not just the trend now-a-days, but it became basic necessity for the eCommerce store owners.

If we see the statistics, approximately, 60% of the online purchase is done using mobile devices. It denotes that users are more comfortable shopping through app as compared to the desktop website. Some prime benefits of having a mobile app are-

- Mobile app makes eCommerce store easily accessible to the mobile users.
- Mobile apps provide a much mobile-friendly interface than mobile sites that enhanced the user experience.
