MAPL is a leading aluminium composite panel manufacturers in India who embrace innovation with product inventiveness that keeps getting upgraded with the changing requirements. Our aluminium panel products are not only variegated but also possess the quality of application on a range of surfaces and areas, making them adaptable and user-friendly.

We are in a constant endeavor to engage in R&D of our products. ACP Sheets and their usages are our focus to keep adding more features and value to our product range. R&D is our mainstay for evolving and growing as the leading manufacturers of ACP products.

MAPL plant has a state-of-the-art manufacturing facility to produce world class ACPs. Our plant has manufacturing facility to produce Aluminium Composite Panels ranging from 2 mm to 6 mm thickness, with Aluminium skin ranging from 0.18mm to 0.5mm, involving tailor made width and length up to 1240 mm and 1550 mm in PVDF paint for exterior applications and Polyester for interior applications. MAPL is equipped to produce over 6500 Sq. mtr. of ACPs everyday and is in the process of enhancing the capacity to increase production to cater to the overseas market. Our manufacturing unit boasts of having dynamically trained and experienced professional technocrats.

MAPL has state of art plant at Sabarkantha, Gujarat that is accredited with ISO 9001-2015 & ISO 14001:2004 certification and also certified by India's reputed testing institutions.

Our Mission is to ensure that we produce benchmarked exterior and interior decorative material acp sheets. We continue to meet the changing needs of our clients with excellent services by our qualified team.

Our Vision is to be an undisputed market leader in the aluminium elevation industry by providing trending exterior and interior building products that enable architecture creation. We maintain consistent quality by creating value propositions for customers and stakeholders.

We highly value collaboration and the coming together of the whole process and team in a way that we can achieve progress. Working together successfully we have implemented several goals and outcomes with the commitment of our people.

We manufacture Aluminium composite panel (acp) sheets, partition panel, hpl sheet, fire grade acp, bus body acp sheet as well as classic acp sheets with variegated textures, designs, colors and range. Our ACP sheets come in various series like stone series, sparkling series, wood series, solid color series, metallic series, corporate series and marble series. Our products boast of weather resistant, fire retardant, moisture resistant and dust resistant features making them a great buy for industrial houses, building exteriors and facades, laboratories and corporate cabins.

Our products are world-class and to consistently achieve this, we have an ultra modern Testing Lab that has highly sophisticated and precise testing equipment. With the conduction and application of a wide variety of tests we are able to simulate products in different environmental conditions. Our test lab achieves precise and great simulator efficiency in assessing our products. This is one of the reasons why our products meet all the national as well as international quality standards and approvals.
