<b>Email</b>	v@riyngroup.com

UIV Chem is a future -oriented scientific enterprise, is committed to using the power of science for human to seek sustainable development solutions, "make life better" is her eternal mission. Now, Our excellent products have been serving in many leading companies in the field of OLED display, OLED light, environmental protection, new energy,chemistry, medicine, biology,etc. and leading a lot of industry technological innovation.

UIV Chem is an innovative company based on global demand for sustainable development. UIV Chem gets rapid and steady growth since 2009 founded, With more than 50 innovations and patents, and was assessed as "Shanghai high-tech enterprises" . Now built huge R & D centers, 1k class clean room and 2 production bases, also established close cooperative relationships with many prestigious universities.

With business expanded continuously, UIV Chem divided all the business into 2 divisions: OLED material and OLED Light. By strengthening the powers and responsibilities of the division, we aims to provide products and decisions closer to our customers.

UIV Chem constantly build top experimental environment and introduce scientists level of professional talents, We realized shorter R & D cycles and lower research costs compared to competitors through our many years' research, successful know-how in related businesses, and optimized environment.UIV Chem take good advantage of cost control and supply top-quality products worldwide to maximize customer value.
