The New Horizon World Academy is an institution which offers World Class learning opportunities with a meticulously designed curriculum. All this while keeping the Sustainable Development Goals in mind. Our infrastructure is unique and well beyond industry standard mark.

We have many facilities that are incorporated within the New Horizon World Academy. This also includes our Reggio Centre. Here, kids are free to sit where they please and interact with anyone and anything inside the room. This freedom allows them to experience, experiment and take part in any or all activity. A Dance studio, music room, library lounge, playground, STEM lab, etc. are just some of the features that makes the New Horizon World Academy stand-out and be the best in class.
