Omsons Glassware Private Limited is a company based in Haryana, India that specializes in the manufacturing and supply of laboratory glassware products. They have been in the business for over 40 years and have established a reputation for producing high-quality, durable, and reliable glassware products.

Omsons Glassware offers a wide range of laboratory glassware products, including beakers, flasks, test tubes, pipettes, burettes, and more. They use high-quality borosilicate glass in their products, which makes them resistant to thermal shock and ensures that they can withstand harsh laboratory conditions.

In addition to laboratory glassware, Omsons Glassware Private Limited also offers laboratory plasticware, filtration products, and laboratory consumables. They cater to a wide range of industries, including pharmaceuticals, biotechnology, chemicals, and more.

Omsons Glassware Private Limited is committed to delivering excellent customer service, ensuring timely delivery, and providing customized solutions to meet their clients' specific needs. They have a team of experienced professionals who work tirelessly to ensure that their products meet the highest quality standards.
