PBRP Consulting is an association of former executives and experienced consultants who are specialized in supporting companies and institutions in their internationalization efforts.

In addition to numerous foreign companies that trust in our market expertise and methodological skills, we have specialized in supporting European companies with their business projects in Asia. Through our close cooperation with trade associations and governmental institutions, we enable our clients to gain fast market access, to safely manage crisis situations and to establish a stable business.

In addition to our headquarters in Modena (Italy), we have offices in Augsburg (Germany), Pune (India) and Shanghai (China). Our network covers almost all markets in Europe and Asia.
