PLC controlled [Semi Automatic Chain Link Fence Machine](#)

Main Features

- 1) PLC controlled semi automatic machine
- 2) servo-motor control Speed, and good performance
- 3) Single wire feeding (inlet)
- 4) Chain link fence width automatic change

Brand: [Haodi](#)

Mesh Size: 25×25 mm - 125×125 mm

- Wire Diameter: 1.3mm - 4.2 mm (PVC Wire: 1.6mm - 5.8 mm)
- Designed for continuous working system as 24 hours.
- single-wire input.
- One mold technology
- Can be used with kind of galvanized or pvc wire. Stainless steel wire, Annealed wire, aluminum cold steel wire. Vinyl coated wire
- Controlled with the touch screen.
- Wire fencing speed can be set via touch screen.
- Improved system to avoid losing time for beginning fencing while changing mold.
- High Energy Saving through the patented operating system and software.
- Owing to special noise isolation, works with very low noise.
- Just one technical person is enough to wire fencing process.

semi automatic chain link fence machine

Machine	Dimensions	mm	5100 * 1000 * 1450 (3m wire mesh machine)
---------	------------	----	---

Type	HD-3000
------	---------

Origin		Hebei, China
Power	Kw	4 (2.5Kw, 1.5Kw)
Weight	Kgs	800
Wire mesh Mesh Width	m	0.5-3(5)
Wire Diameter	mm	1.2-4.5 (PVC Wire: 1.6mm - 5.8 mm)
Hole size	mm	25-100(1" - 4")
Others	wire materials	Galvanized iron wire PVC WIRE, stainless steel wire
	capacity	m2/hour 60-120
	Rated Voltage	V 220 380 420 440 etc

Good performance of Semi Automatic Chain link fence machine:

- 1: production efficiency is about twice of same species
- 2: fault is the lowest in the same species
- 3: machine is easy and simple to handle.the worker has the common mechanical knowledge can master it in one hour
- 4: the loss of the raw materials of the same species is 1%-5%, while the innovative this Chain link fence machine is nearly zero.
- 5: the Chain link fence machine can Save 20% of your electricity
- 6: it is suitable to all kinds of mild steel wires
- 7: the mesh size has a wide of wide adjustable range
- 8: the preferential price and first-class quality is the most ideally choice of the customers

chain link mesh machine supplier: AnPing HaoDi metal wire factory

Main Features

- 1) PLC controlled semi automatic machine
- 2) servo-motor control Speed, and good performance
- 3) Single wire feeding (inlet)
- 4) Chain link fence width automatic change

Our Services

Engineers available to service machinery overseas. Offer customer instruction list, and necessary videos.
