Pocket HRMS is a cloud-based HRMS software that helps organizations manage and streamline their employee management processes. It is a tool that automates various HR functions such as payroll processing, time and attendance, performance appraisal, training, and recruitment. It is an end-to-end HR payroll software designed to address the various challenges and pain points of the HR team in managing employees from companies of all sizes and verticals.

Headquartered in Mumbai, Pocket HRMS has a PAN-India presence with offices, vendors and channel partners in Chennai, Kolkata, Bengaluru, Delhi, Pune, Hyderabad and Gurugram. Some of the key features of this SaaS-based solution include an attendance system and an HR chatbot – smHRty, that can interact with employees to apply leaves, and answer queries. Established almost two decades ago, Pocket HRMS' core values are, ensuring the best in customer service, cost-effectiveness, and robust module offerings.

Additionally, it also offers the HR team a unique global look at their database with smHRt searchHR, a unique implementation of its kind in the HR domain. Pocket HRMS is a valuable tool for organizations looking to streamline their HR management processes and improve efficiency. It can help HR professionals save time and reduce the workload associated with managing employee records and other HR tasks, allowing them to focus on more strategic HR initiatives.
