Today **PPS Machineries** is pioneered in setting up Water Treatment Plants & Food and Beverage Units globally. At present, PPS Industries is one of the fastest-growing company in the manufacturing machinery for the processing and packaging segment with a strong presence not only nationally but also in the international market.

In 2008 PPS was formed for providing water treatment solutions only but our continuous research and development has helped us to establish various associated verticals. Managed by a multidisciplinary team of highly experienced professionals, technologists who have worked in this field for more than 25 years. We have great experience in Food Industry. We also provide customized service and turnkey projects for bottled water, soft drink, and fruit juices.
