securweave@gmail.com

Headquartered in Hyderabad, SecurWeave was founded in 2021 by three industry professionals with decades of experience in developing critical security and safety solutions. Its founding members have more than 80 years of combined experience in networking, operating systems, safety and mission-critical systems, embedded electronics, and both civil and military applications. The company is dedicated to developing comprehensive security platforms that are tailored to the never-before-seen demands of the developing autonomous digital world.
