We provide a unified platform to View, Manage & Process the orders that our customers receive through their own platform / multiple marketplaces. We help them with warehousing and end-end logistics solutions till the last mile delivery, Hence streamlining the process making it efficient & affordable for our customers. Shift offers comprehensive solutions for order fulfilment services in India and shipping for B2B and B2C sellers. We provide Same-day order shipments, flexible storage options, discounted shipping rates and strategic warehouse locations closer to end customers. It's an unnecessary battle for eCommerce businesses to establish their own storage facilities – partnering with us means you get all the best logistics abilities at the most cost-effective rates.
