Email	info@silvertouch.com

Silver Touch specializes in the implementation of Digital Transformation for Enterprise customers. We provide services on Artificial Intelligence, Machine Learning, Big Data & Analytics, and Robotic Process Automation (RPA).

We specialize in building large enterprise applications on Mean stack, Microsoft, Open Source, and Cloud Technologies like Azure, and AWS. We help software products and SaaS companies to build, upgrade and support the Applications. Legacy application migration to the cloud is one of our specializations.

We have the highest quality standard certification in the industry.

- CMMI Level 5 Quality Standards
- ISO 27001 Information Security Standards
- ISO 20000 Service Delivery
- ISO 9001 Quality Standards
