Based in Delhi NCR and other northern parts of India, we are a manufacturer, supplier and exporter of innovative prefab structures purely amplified on re-usage of non-biodegradable substance effectively. Solvabuild structures were introduced, that is revolutionized and made at par with energy efficiency and viability. The prefab modules are produced in-house at our factories are located in Manesar, Haryana, Bhilai and Chattisgarh. Materials like discarded plastic bottles, straws, rubbers, glass, etc., are gathered and processed into prefab structures, impacting greatly towards reducing environmental pollutants.
