

## Spherical, Aspherical Lens, Optical Assemblies Factory

<b>Address</b>	No.5099, Fanrong Road, Changchun High-tech Zone
<b>Contact Person</b>	Helen Xie
<b>Mobile Number</b>	
<b>Email</b>	<a href="mailto:sales@opticreate.com">sales@opticreate.com</a>

Opticreate Technology Co., Ltd. is located in China optical base- Changchun City, Jilin Province. It mainly produces high-precision optical components **optical lens systems**. It specializes in designing and manufacturing **precision optical components** and lens modules for medical instruments, security monitoring, scientific research institutes (including aerospace industry).

In the processing of optical products, it is committed to aspheric surface processing, including **hyperbolic aspheric**, parabolic aspheric, elliptic aspheric etc, it is one of the largest aspheric production base in Northeast China. In addition, it also focuses on the production of cylindrical lens, prisms, **spherical lens**, achromatic doublets, coating products, as well as the processing of crystal materials, such as Fused Silica, magnesium fluoride (MgF<sub>2</sub>), calcium fluoride (CaF<sub>2</sub>), zinc selenide (ZnSe), silicon(Si) and germanium(Ge) etc. the maximum size can reach 800mm.

**Opticreate** is equipped with an outstanding team combined by first-class technicians and experienced operators, also with advance productions and test equipments like high procession polish machine, single point diamond turning, Taylor profiler, Zygo interferometer to assure the quality. Opticreate is also certified with ISO9001-2015, could provide customer fabulous products and services.
