**Mobile Number**

**Email** xue@demisterpad.net

Yingdu is a professional manufacturer and supplier of Demister Pads. Our major filter products include ss wire mesh demister pads 304, 316, 347 and other grades, vane type demister pads, copper knitted mesh, monel and inconel knitted mesh demisters and PP demisters of various sizes.

**Yingdu Demisters** are popularly used in petroleum refining, petrochemical industry, gas chemistry, synthetic chemistry, salt and sugar manufacturing and other chemical industries.

Our demister pads mainly work in the following fields:

1. Vacuum Tower - The treatment quantity by the demister goes up by 35%. The quality of oil gas is improved.
2. Absorber - Some gasoline plants use a glycol absorber so the installation cost is being repaid within a month.
3. Knockout Drums and Separators - If Demister is used, 1/2 inch drum is sufficient.
4. Gas Separator Vessels - Hydrocarbon in gases is collected so gas of 1/0.1 billion purity is produced out.
5. Evaporator - Product loss goes down and purity is remarkably improved.
6. Scrubber - In the field of caustic soda, the demister is used to prevent air pollution.
7. Distillation Column

For quality demisters or mist eliminators, contact to import from Yingdu Demister Pads Co.
