Tadarise pro 40 must be taken approximately 30 to 60 hours before sexual activity. The effect of the tablet lasts for 36 hours, so it is advised not to take more than one tablet a day and take when only one plan to have sexual intercourse. Take Tadarise 40 tablets in the dose as prescribed by the doctor. The dosage is based on the person's medical condition, response to treatment, and other medications one may be taking.
