Technology Counter

Technology Counter is the fastest-growing tech recommendation platform. Where businesses can explore, analyze, and manage appropriate technology required for their businesses. Thus, achieve their goals and vision.

Technology counter is a brainchild of Mr. Hussain Kachwala started in November 2019. That is just the tip of the iceberg; Hussain and the core team has been working hard since 2014 to curate quality content for its users.

We observed the struggles faced by SMEs to set up suitable software solutions for them. We have a highly dedicated and passionate team that understands your needs.

Our mission is to streamline your business processes and reduce your hustle to a bare minimum. We at Technology Counter aim to be the most reliable source for every business. We help you to make the right technology decisions for the best results. So [contact us](#) for free software & tech consultation.
