UGES is a leader in the field of renewable energy. We aim to provide the best, clean, and safe renewable energy solutions to overcome the energy crisis in the form of wind and solar energy. With more than two decades of experience in the domain of design, project execution and management, quality assurance, and analysis, our experts provide wind and solar energy services like Renewable Technical Due Diligence, Feasibility Study, Project Design, Project Handing Over, Asset Management, & I-V Curve Testing In India. We also provide GWO training services to create a technically skilled workforce through the training and development program in our School of Renewable Energy, where we train our students with the most extensive technical, functional, management, and safety skills of wind and solar energy.
