Ultra Healthcare is the invention of Dr.Minna Jakhar who is a well-qualified medical professional with an MBBS Gold medalist. Ultra healthcare is working with different five divisions in the area. All divisions are offering reliable ayurvedic health care services along with natural herb-based products and medicine.

Male Products or type unknown

Why does Ultra Healthcare claim better health services and products?

There are not only the natural herbs in the use but the addition of aesthetic values as well. In health treatment, Ultra Healthcare and its divisions follow ethical standards. These standards are the rare combinations of traditional treatment concepts of Ayurveda and modern assets.

There is room for new ideas and health care potential with the exported services which the experts select after a long process of testing.
