Established with a vision to deliver fresh cow's A2 milk directly from our farm to your home. We use milk from a herd of Desi breed Gir cows and deliver it at your doorstep in tamper proof bottles. We promise to always provide you with fresh, natural and nutritious milk from our dairy farm to your home. We take great care of cows. We do so because we believe that happy cows produce better, healthier & wholesome milk. Using only best-in-class technology and a Desi breed of animals suited to Indian conditions, our dream is to produce natural fresh, pure A2 milk fulfilling international standards and guaranteeing the highest level of quality and purity. Our dream is to revolutionize the milk industry in India by providing a high-quality, hygienic and nutritious product as well as professional service to as many homes as we possibly can.
