**Vega Schools'** unique features and facilities have led to us being selected as amongst the best schools in Gurgaon.

Founded on the principles of Problem Based Learning which incorporates projects, inquiry, and experiential learning in a multi-disciplinary approach, Vega strives to discover the star within each child. Learners are guided through a cycle of inquiry to determine what they choose as their project, which is around complex issues with no one correct answer. All subject areas (scholastic and co-scholastic) are incorporated into their learning as they research solutions.
