### About us:

Wonder Cement is India's leading and one of the fastest growing **cement manufacturers** and suppliers operating in almost every part of India including Rajasthan, Madhya Pradesh, Gujarat, Maharashtra, Haryana, Delhi, Uttar Pradesh, Punjab, Uttarakhand, and Jammu & Kashmir. Our plant at Nimbahera (Rajasthan) is amongst the most modern cement plants in the country, and it was set up in technical collaboration with ThyssenKrupp and Pfeiffer Ltd., world leaders in cement technology. Our industry is set up in technical collaboration with ThyssenKrupp and Pfeiffer Ltd. of Germany which are the world leaders in cement technology. Currently **Wonder Cement** has three products namely Ordinary Portland cement (OPC), Portland Pozzolana Cement (PPC), and Wonder Xtreme. These products are consistent when it comes to quality and work according to different purposes. This quality is a result of our relentless pursuit of perfection and the tech-focused innovation we are deploying across departments.

### Wonder PPC:

**Wonder Cement PPC** is produced by grinding well-burnt OPC Clinker with gypsum and pozzolanic materials such as power-station fly ash or siliceous earth. The production process here is fully-automated and adheres to the highest standards of quality. The advantages of the product include high durability, better workability, enhanced surface finishing and more. That's why it's the best option if you are looking for cement for plaster, brickwork, marines work, mass concrete work, and RCC work in residential construction

### Wonder Xtreme:

**Wonder Cement Xtreme** is a high-performance cement formulated to meet IS 1489 standards. We developed this cement after years of research and feedback from civil engineers over the last decade in this industry. It comes in eye-catching BOPP bags to prevent spillage and keep the environment clean. Wonder Cement Xtreme's advantages include high durability, high compressive strength, smooth concrete, dampness protection, and more.
