Kangleda New Energy Co., Ltd is located in Yueqing , Which enjoys a good reputation of “ China Electric Capital” in Zhejiang. Kangleda is blessed with approaching the East China Sea and situating at the foot of Yandang Mountain. Kangleda, founded in 1995, is one of the earliest enterprises developing and manufacturing solenoid valves in China, and participated in the development of national technical standards for specialized solenoid valve of household washing equipment. After decades of hard work, Kangleda has possessed six production and testing assembly lines of **solenoid valve**, as well as one solenoid valve research institute. With the capability to independently develop, produce and test above-mentioned products, Kangleda is a professional manufacturer which has large influence in the industry across the country. Kangleda’s products have been sold throughout China, Southeast Asia, Europe and America etc.

Kangleda’s main products include **solenoid valves**, infrared sensor sanitary appliance and accessories. Its over 100 kinds of solenoid valves are widely used in the production fields such as national defense, vessel manufacturing, agriculture and animal husbandry, gardening, washing appliances, solar water heater, infrared sensor sanitary appliance, pre-charging supply system (IC card water meter etc), water treatment, wine, milk, drinks etc. In 2000, Kangleda took the lead in the developing the industrial technical standards of solenoid valve, which obtains the record in the Quality Supervision Bureau (Record No.: Q336382-K65.183); in the same year, Kangleda obtained the health and safety appraisal from the Center for Disease Control and Prevention of Zhejiang Province. Kangleda passed ISO9001:2000 international quality management system in 2001, obtained the National CCLC safety certification in 2003, obtained the European CE certification in 2005, was validated as self-support export company by the Bureau of Foreign Trade, passed hazardous substance testing and obtained RoHS certification in 2006, and was officially awarded the solenoid valve patent certificate by the State Intellectual Property Office in 2007. Kangleda has been honored as “ Unit of Honoring Contracts and Standing by Reputation” by the provincial Industrial and Commercial Administration for consecutive years. Obtained the national CQC safety certification in 2012; Passed the Reach toxic substances test in 2013; Passed the British WRAS and French ACS test in 2014, and obtained the certificate; Awarded irrigation water-saving certificate by the American Irrigation Association in 2015; Obtain the patented certificate of Solenoid valve again and National Utility Model Patent certificate in 2016; In addition, Kangleda has established a strict quality management system according to ISO9002 standard, thus always building Kangleda brand on the basis of quality first.

Kangleda keeps absorbing advanced management theory and experience, and has developed its own unique business philosophy of “ taking lead in technology, pursuing innovation, valuing quality and seeking customer satisfaction”. Kangleda New Energy is willing to cooperate with guests at home and abroad for seeking common development and creating glorious achievements.
